

Quality Reading Glasses

Determine your eyesight needs in an instant.

Stand about 14" away from this chart.

The first line you have difficulty reading will have the magnification strength to the right.

Use the magnification power and color code to select the frame style you desire.

| | |
|--------------------------------------|---------------|
| <i>i-gogs</i> Quality Readers | Mild |
| <i>i-gogs</i> Quality Readers | Medium |
| <i>i-gogs</i> Quality Readers | Strong |

If you have experienced a vision loss, the selection of these glasses should not take the place of an eye exam.
